TEMPUR® – Adapts to  
you perfectly, so you  
feel weightless

No two people are the same. We all differ in shape, size and style. And, we all sleep differently. So it's worth investing time to find a mattress that gives you a perfect sleep night after night. First developed by NASA, TEMPUR® Material conforms to the unique shape of your body, absorbs motion and relieves pressure where you need it most.

# Sleep Technology™ by TEMPUR®

## Pioneers in sleep technology

At TEMPUR®, we're driven by a passion for innovation and the desire to give you the best possible night's sleep. We believe this can only happen on a mattress that's supportive and comfortable.

### Innovation in our DNA

Our passion was established over 30 years ago, when a team of scientists at NASA developed a ground-breaking material to provide support to astronauts during lift-off. We quickly realised it would revolutionise the way people sleep, and our committed engineers and sleep scientists set about perfecting TEMPUR® Material.

TEMPUR® has an interconnected viscoelastic cell structure

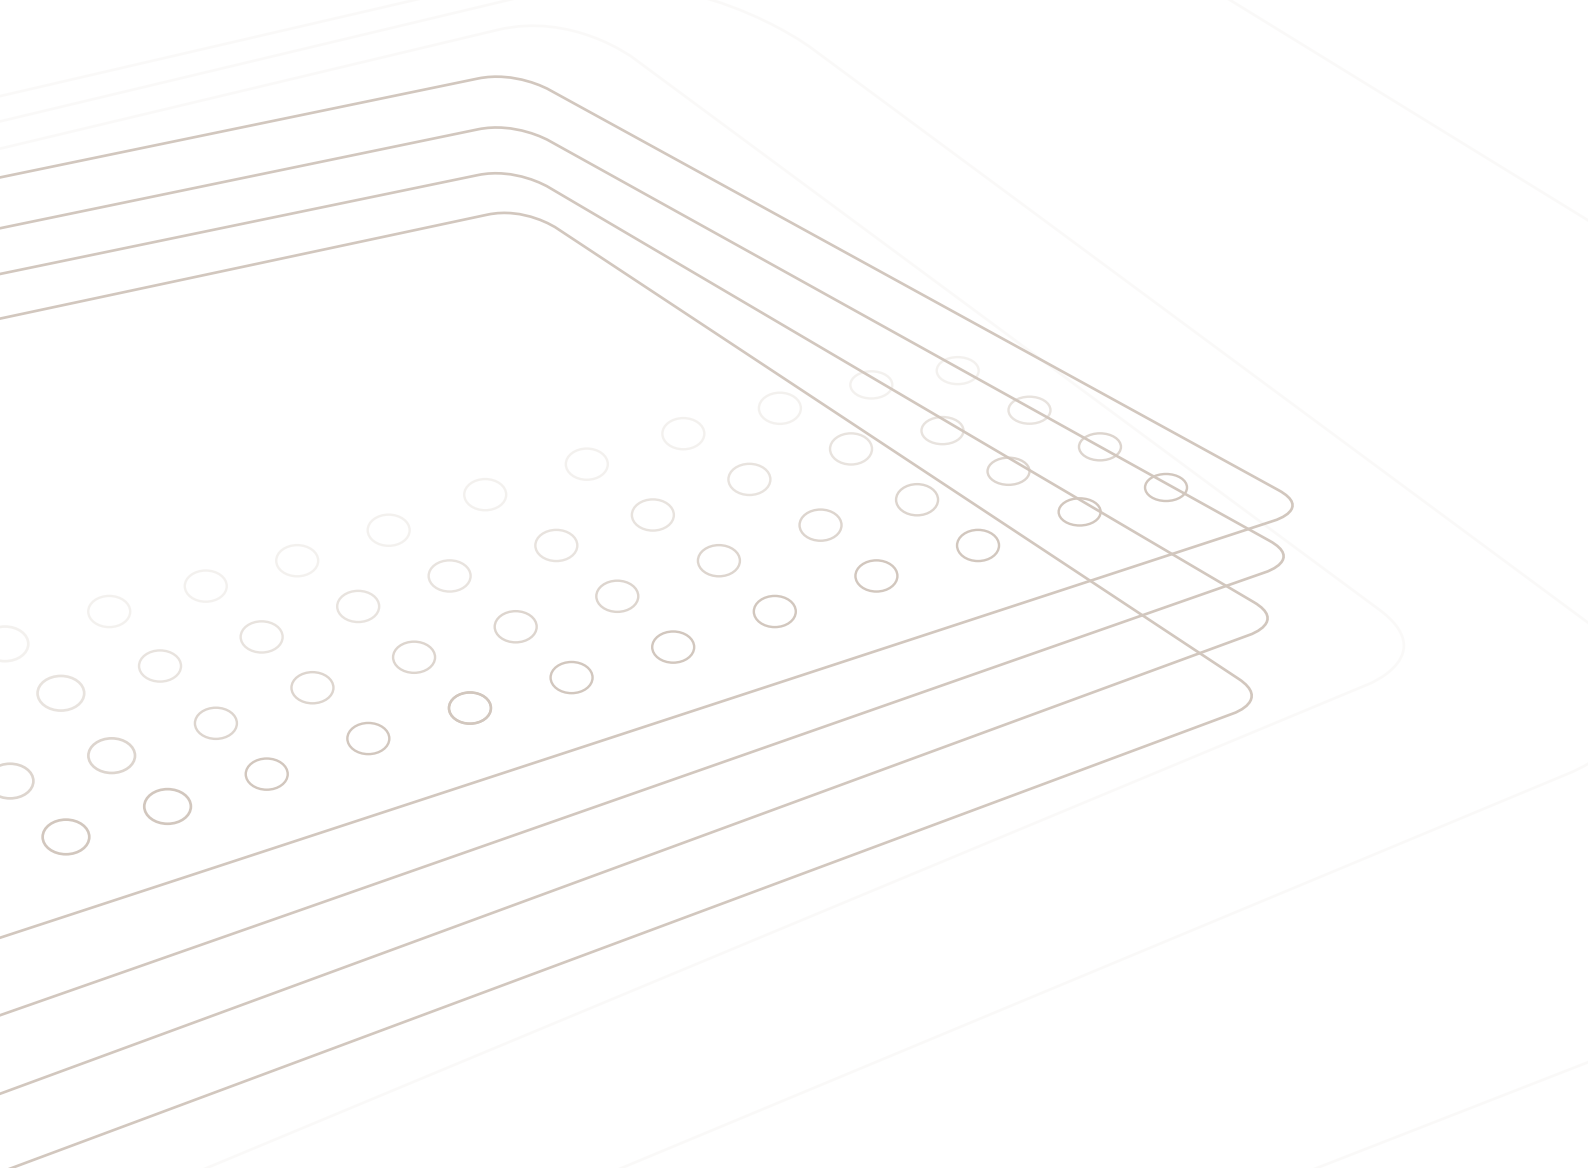

### A tireless quest for perfection

Actually, it doesn't stop there. We invest tens of millions each year into research and testing. Plus we're supported by a certified panel of sensory experts and sleep specialists. This ensures that every element of every product we create performs in such a way that you can enjoy hours of perfect restful sleep, night after night. All you feel is weightless.

### Here's how it works

TEMPUR® Material is designed to conform to the shape of your body, absorb motion and relieve pressure in all the right places – the key components to a supported, peaceful night's sleep. Mission accomplished.

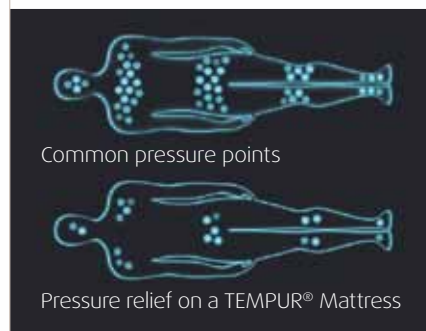

Sleep Technology™ by TEMPUR®

# Sleep Technology™ by TEMPUR®

## The best night's sleep by design

Our sleep experts, designers and engineers have spent years pioneering and perfecting our signature TEMPUR® Material, so you can experience personalised support and comfort that is your perfect fit.

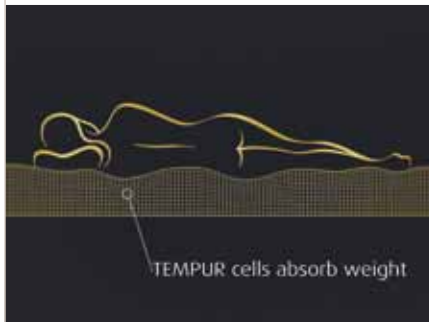

## Maximised pressure relief

TEMPUR® Material is a pressure-relieving surface, engineered with an open cell structure that absorbs and evenly distributes the weight of your body and maximises comfort.

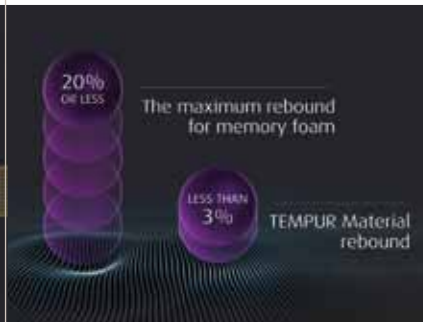

## Personalised body support

We have designed TEMPUR® Material to be in the ideal state to soften, compress and conform to your shape and weight at average bedroom temperature. Whichever position you find most comfortable, TEMPUR® adapts to you.

## Outstanding motion absorption

TEMPUR® Material absorbs motion – so you and your partner can move and are less likely to disturb one another. Motion absorption is measured through rebound – the lower the better. Drop a weighted ball onto standard memory foam and it can rebound up to 20%. TEMPUR® has a rebound less than 3%.

## Long-lasting performance – guaranteed

While many industry experts recommend that you review your mattress every seven years to enjoy the best possible sleep, at TEMPUR® we guarantee our mattresses for 10 years. In this time it will retain at least 95% of its height, with no lumps or bumps – just outstanding performance for years to come.

# #myperfectfit

TEMPUR® is ranked number one in satisfaction across Europe, Australia, Japan and South Korea.\* We asked TEMPUR® owners what they love about their TEMPUR mattress and here's what they had to say:

"I couldn't imagine sleeping on anything else. I look forward to going to bed earlier now, because I know I'm going to be comfortable. I'd rather be at home sleeping on my TEMPUR® bed!"

Jack & Jessica Chong

"When you compare most normal mattresses, they do pretty much the same thing. But when you get on a TEMPUR® mattress, it's a completely new way of sleeping. Life's hectic, but once you've had a good night's sleep on a TEMPUR® mattress, you just feel wonderful."

Jane & Ian

\*Based on interviews conducted with over 37,000 mattress owners in 13 countries from 2014-2015, where owners in each market rated TEMPUR® highest in satisfaction versus owners of other mattress brands. For more details please visit [tempur.com](http://tempur.com)

If you love the way TEMPUR® adapts to your body shape and weight perfectly, why not share your thoughts? Go to [tempur.com/myperfectfit](https://tempur.com/myperfectfit) or visit us on Facebook and join the conversation.

"Once you have a good sleep, then you can do things the next day so much better. We should have looked at this so much earlier! It's the best investment that I think we've ever made."

Carol & Robin

# Beds Explained

TEMPUR® offers you a choice of complete bed systems, bed frames and bed bases to complement your TEMPUR® mattress.

We have a range of designs, inspired by the quintessential European tones. For added comfort, select from various bed bases that can transform your TEMPUR mattress from static to an adjustable one.

## Bed Frames

The bed frame is the piece of furniture that is the main focal point of the bedroom as well as the support structure for your TEMPUR® mattress. Our bed frames are upholstered in sumptuous fabrics and with a variety of headboards to suit your style of décor.

## Bed Bases

Bed bases provide the support for the mattress within a bed frame. Depending on the type of bed base you can enhance your sleep experience by selecting an adjustable base that either raises the head end (for watching the television) or foot end (for elevating your legs for added relaxation) or both.

**Each of the beds on the following pages combines the benefits of a TEMPUR® mattress, Bed Base and Frame in a complete Bed System into one volume – a design solution for total comfort.**

You will enjoy the relaxing sleep that only a TEMPUR® mattress can deliver, while also complementing the aesthetics of your bedroom with these stunning designs. Style the model of your choice with colours and legs to complement the décor of your room.

# TEMPUR<sup>®</sup>

## Bed Systems

**Designed to perfectly complement your bedroom.** The ideal sleep experience combines form as well as function. With a range of attractive Bed Frames, TEMPUR® provides not only a great night's sleep, but also the perfect aesthetic solution for your bedroom.

# TEMPUR<sup>®</sup>

## Bed Frames

**Combine a high quality Bed Base with your TEMPUR® mattress to fully enjoy the superb comfort and support it provides.** All TEMPUR® Bed Bases are available in both static and adjustable versions and can be dropped into an existing Bed Frame, or they can be purchased with a choice of legs to turn them into a standing bed. Adjustable Flex Bed Bases enable you to raise your head, body and legs, making it more comfortable to read, watch TV or lift your tired feet for better relaxation.

# TEMPUR<sup>®</sup>

## Bed Bases

# TEMPUR® Flex Bed Bases

## Sleep Technology

### Flexible Plates

TEMPUR® Bed Bases have flexible plates made with an open honeycomb structure for better ventilation. For Flex Cloud bases, the plates can be easily twisted to adjust their firmness, making it possible to customise the base for optimal comfort.

### Head Zone

The flexible plates are more rigid, providing additional support.

### Foot Zone

Firm, supportive flexible plates are used in this area.

### Shoulder Zone

For this sensitive area of the body the flexible plates are softer.

### Back Zone

The flexible plates have a medium level of firmness.

## Optional features

### Wireless Remote

A wireless remote control is an option for the TEMPUR® Flex 2000 and a convenient radio frequency model is standard on the TEMPUR Flex 4000 and TEMPUR Flex 8000.

### Support Inserts

The firmness of the various zones, i.e. shoulder zones, lumbar zone etc. can be increased by adding the support inserts into the flexible plates on the Bed Base.

### Mattress Holders

To prevent the mattress from slipping, when using an adjustable base, we recommend using five holders: One at the foot area and two on each side of the frame. Available in plastic or chrome.

### Remote Controlled Socket

Enables you to turn a light, or other electrical device, on and off via the bed's radio remote control. Available for the TEMPUR Flex 4000 and the TEMPUR Flex 8000.

### Legs

A selection of leg styles are available to fix to the TEMPUR® Flex Bed Base.

### LED Light Strip

This underbed light strip gives a stylish and atmospheric night light effect. It fits easily onto the bed frame and is activated via the bed's remote control.

### Massage Unit

As an option you can choose to include a massage unit. The soft vibration helps to unwind tense shoulder and back muscles and gives a relaxed feeling all over.

# TEMPUR® Flex Bed Base

## Options

Choose your ideal bed base to complement your TEMPUR® mattress.

---

### TEMPUR® Flex 500 – Static

A non-adjustable Bed Base made with a light but durable construction to support your TEMPUR mattress.

## Home Accessories

### Bed Back Support

Used on an ordinary mattress, this product offers support for the lower back and improved comfort for people with back strain and for pregnant women.

### Universal Pillow

A semi-circular pillow for all-round use when you need extra support. Ideal for use under the knees, arms, ankles, the lumbar region or the neck.

### Long Hug Pillow

Wonderfully versatile, besides being used as a hug pillow, its length means that it can replace the need for two pillows on a double bed. It can also be used as a support pillow when reading or watching TV in bed or on the couch.

### Vein Cushion

Offers improved comfort when you suffer from conditions such as varicose veins, leg or ankle strain and swelling.

### Multi Pillow

This pillow is designed for multi-purpose use to support and relieve different areas of the body from pressure and discomfort. Ideal for pregnant women.

## Seat Cushion

This cushion distributes your weight more evenly over the surface, improving comfort and reducing numbness while sitting. Can be used on most chairs.

## Lumbar Support

The anatomical shape, the variable height adjustments and the supportive properties of the TEMPUR® Material combine to ensure that it fits comfortably to the curve of your spine for optimum support. Ideally combined with the TEMPUR® Seat Cushion or TEMPUR® Seat Wedge.

## Seat Wedge

Designed to help relieve pressure on the back. Due to its shape, the seat wedge pushes the pelvis forward, which helps bring your back to an upright posture. Ideal for everybody working for long periods of time in a sitting position, especially computer users. Also consider the TEMPUR® Lumbar Support.

## Leg Spacer

Recommended for use between your legs or under your ankles to relieve pressure and enable you to sit or lie more comfortably.

# TEMPUR® Travel

## TEMPUR® Transit Pillow

Supports the neck and head gently allowing you to sleep more comfortably when traveling.

CE

## TEMPUR® Sleep Mask

Gently forms to the shape of your face to completely seal out light and cushion the eye area while you sleep or rest.

## TEMPUR® Car Comforter (left)

Specially developed to use on a car seat to offer the ultimate in car comfort. The adjustable lumbar support can be positioned to comfortably support your back, or it can be removed if you prefer to use just the TEMPUR® comfort layer on your seat.

## TEMPUR® Original Pillow Travel

Take your favourite pillow with you when you are away from home – it has the same shape and function as the TEMPUR® Original Pillow, but is half the width. This pillow is supplied with a travel bag which compresses the volume 70% when packed.

CE

## TEMPUR® Travel Set

Offers a portable sleep system for all those who cannot leave home without their TEMPUR® mattress and pillow. This lightweight set consists of a travel topper and a travel pillow, packed into a convenient carrier bag on wheels.

CE

## TEMPUR® Transit Lumbar Support

The anatomical shape, the variable height adjustments and the supportive properties of the TEMPUR® Material combine to ensure that it fits comfortably to the curve of your spine for optimum support. Ideally combined with the TEMPUR® Seat Cushion or TEMPUR® Seat Wedge.

CE

## TEMPUR® Bicycle Saddle Cushion

Perfect for use on your bicycle or exercise bike. It conforms to your bodyshape, providing comfort and protection from saddle sore. This cushion is held securely in place by an adjustable cord toggle and the cover is durable for long term use.
