A Story that's out of this world

THE *ONLY* MATTRESS AND
PILLOW RECOGNIZED BY
NASA AND CERTIFIED BY
THE SPACE FOUNDATION

Decades of Space Innovation Inside

TEMPUR® Material was first developed for NASA to cushion astronauts during space flight. We harnessed this ground-breaking technology to create the world's first memory foam mattress and pillow.

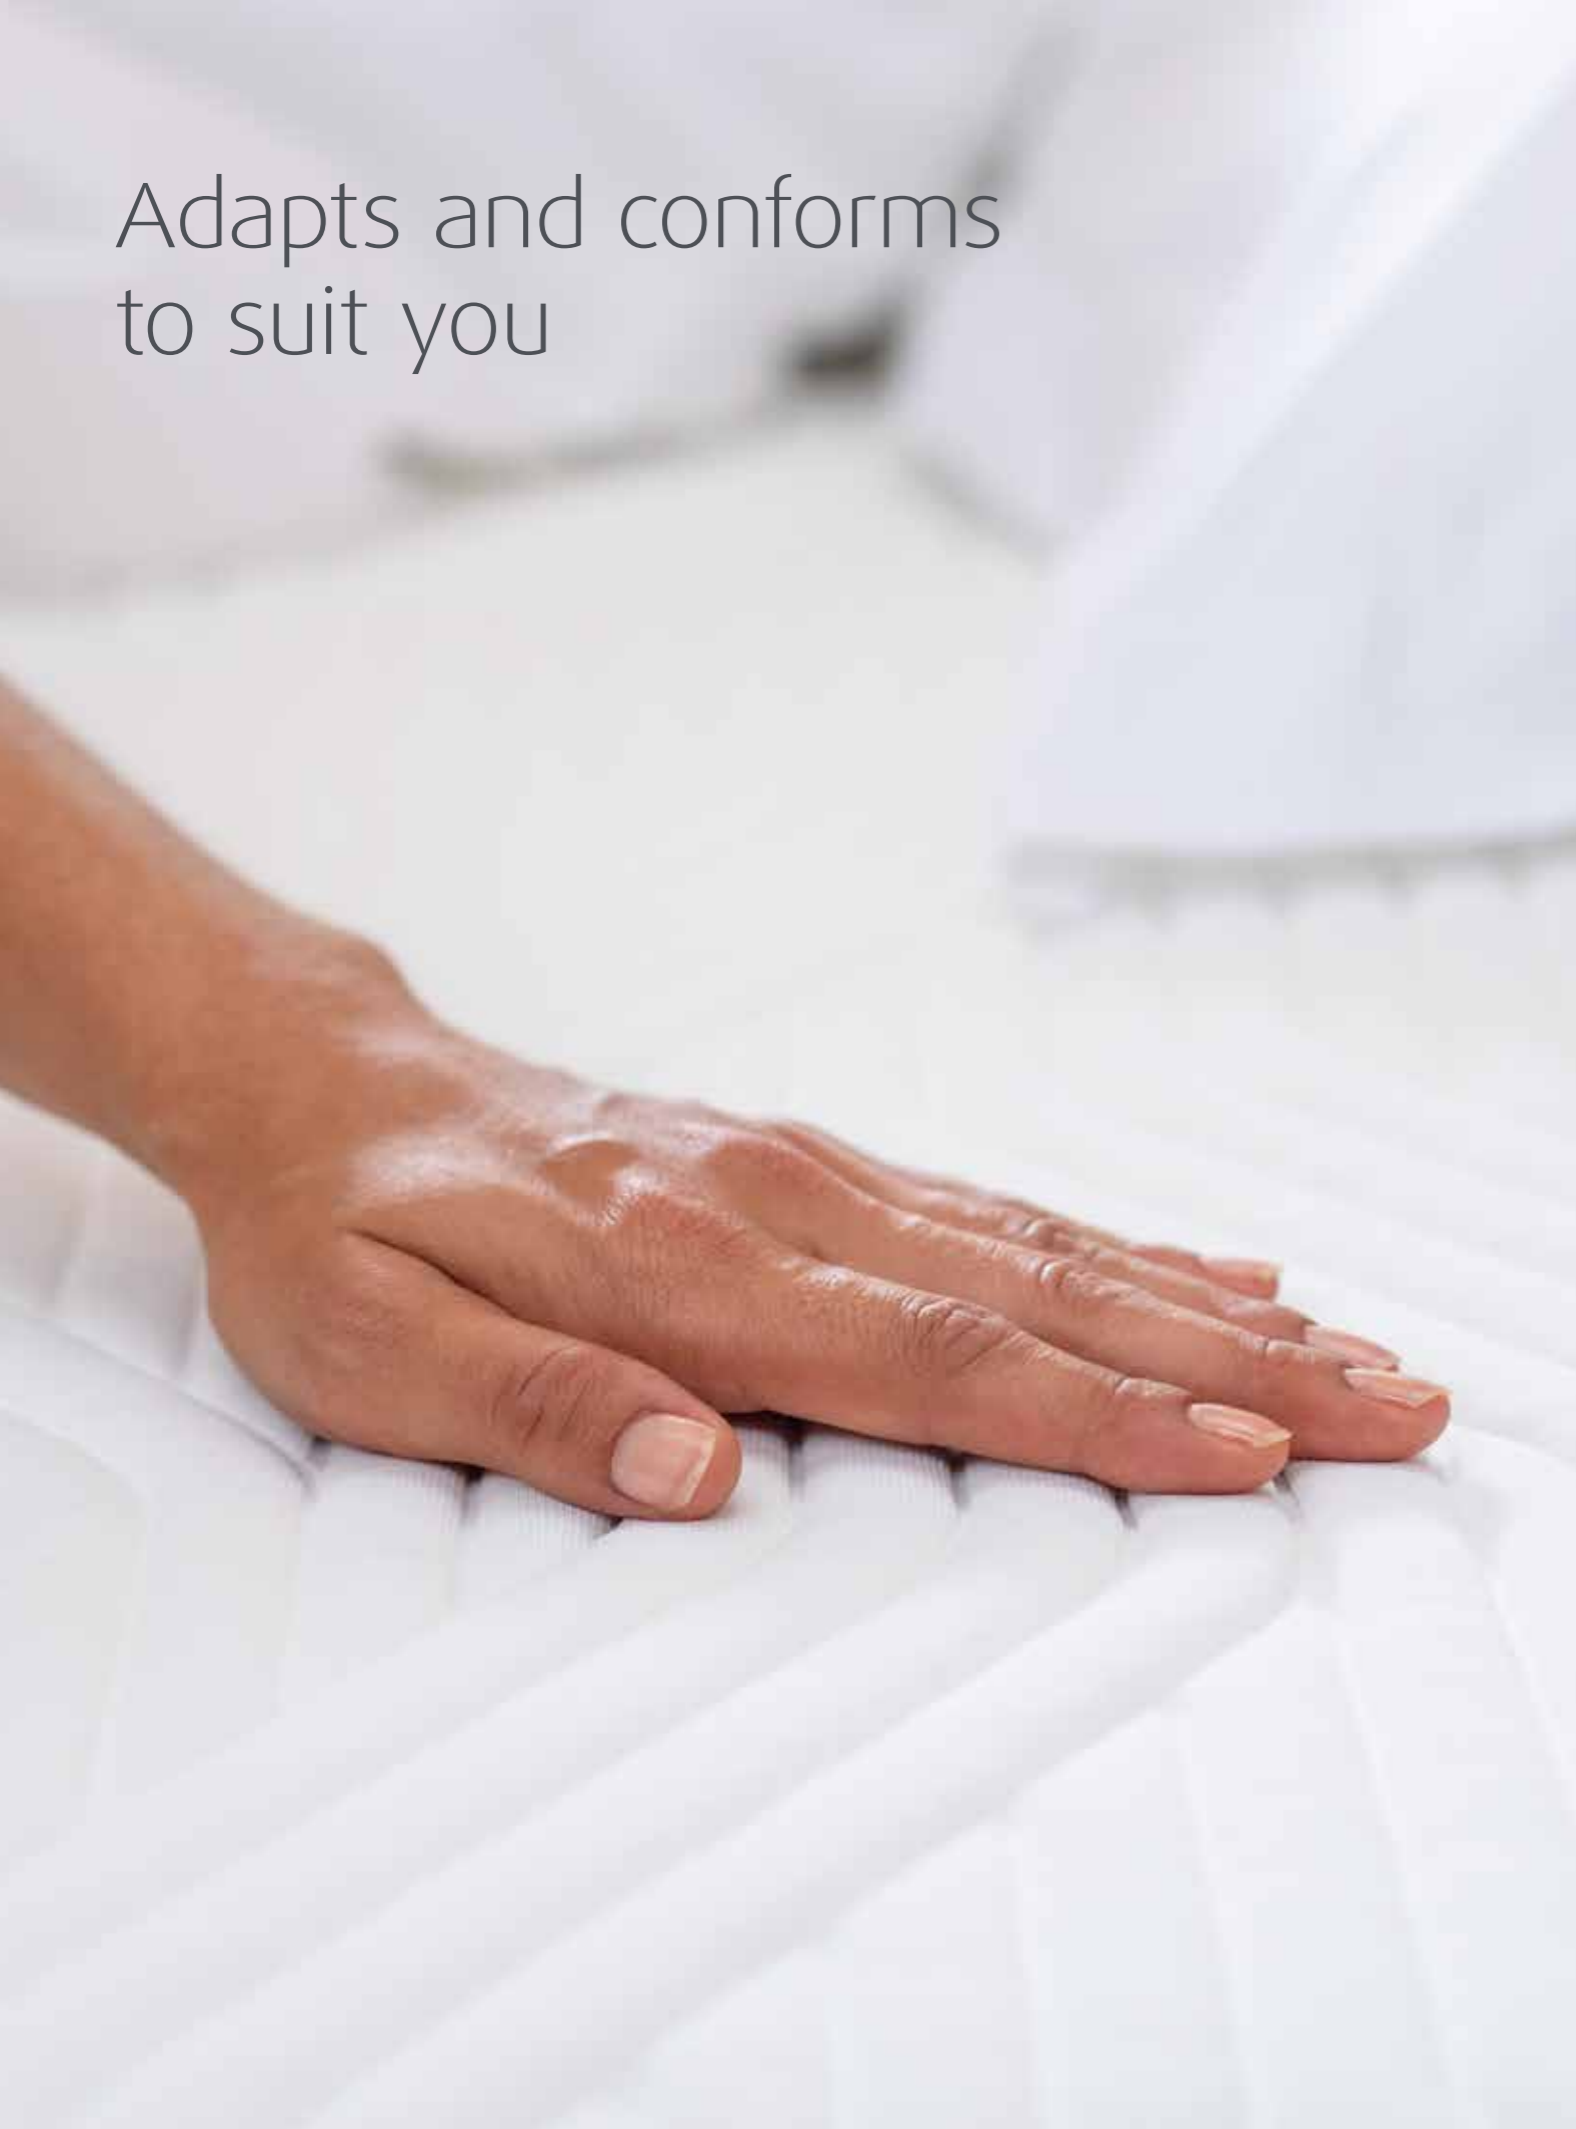

We have since spent thirty years perfecting that original invention to give you a quality of sleep like no other.

Our unique heritage inspires us to go beyond what we thought humanly possible. This ensures we continue to strive for constant improvement.

Like NASA, our mission is to create the greatest possible benefit for all. That is why we continue to evolve TEMPUR® Material to help give you the sleep you need every single night.

Adapts and conforms
to suit you

Outstanding Sleep Technology

The space tech in our Material is a closely-guarded secret. Only ten people in the world know the formula. TEMPUR® Material has been uniquely optimised for unrivalled durability, as well as enhanced pressure relief and motion absorption to minimise nightly toss and turn.

Precision Engineered For Perfection

Our scientists have refined the viscoelastic cellular structure of our Material to respond and adapt to your individual body size, shape, weight and temperature for the perfect balance of comfort and support.

Why TEMPUR®?

That Personal Touch For Better Sleep

No two people sleep the same way. Whatever your preference, we have a tailored solution to help you find your perfect fit:

Whether you need more comfort or superior support - or both - our unique Material comes in five distinct feels to suit your needs.

Now it's even easier to keep your mattress clean with our QuickRefresh zip-off cover that's machine washable at 60°C.

Sleep hot? No problem. Our innovative CoolTouch™ cover Technology is the perfect solution to instantly help regulate your body temperature at night.

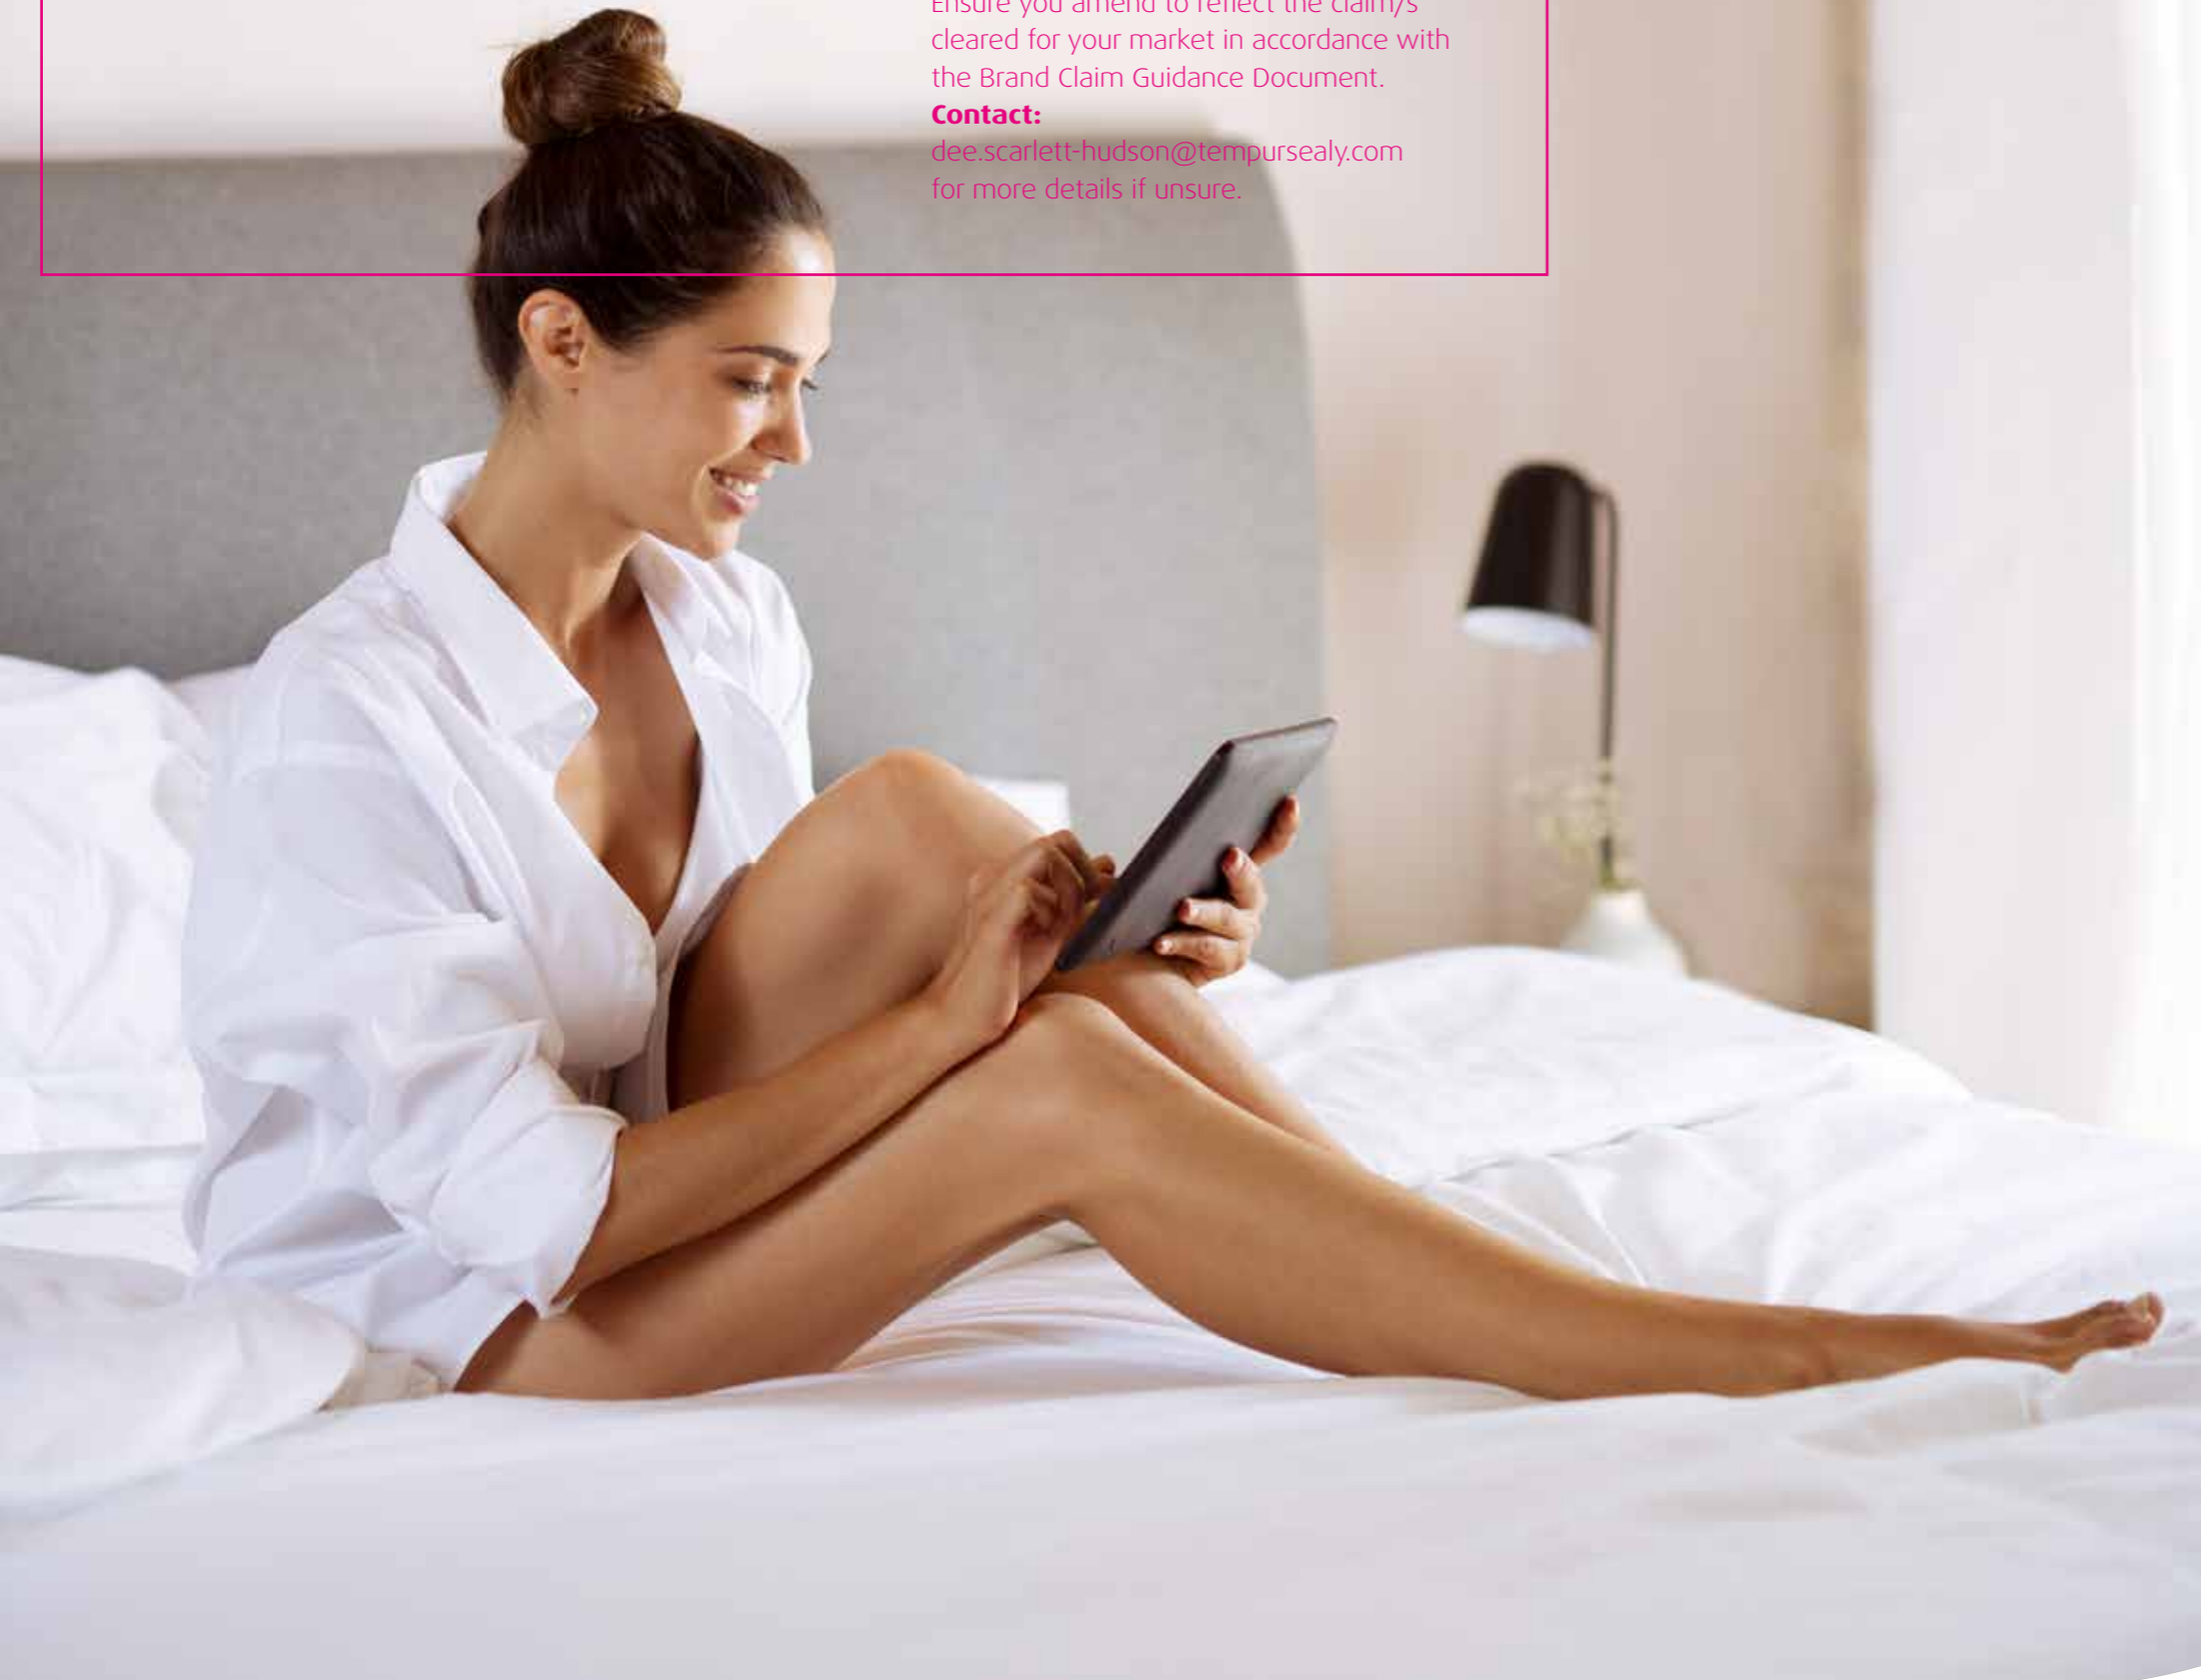

Whether you need extra neck support or a more luxurious feel, we've got that covered too. Our range of pillows comes as classic or ergonomically designed for enhanced neck and head support.

Jane & Jan

"When you compare most normal mattresses, they do pretty much the same thing. But when you get on a TEMPUR mattress, it's a completely new way of sleeping. Life's hectic, but once you've had a good night's sleep on a TEMPUR® mattress, you just feel wonderful."

Jesseica

"I couldn't imagine sleeping on anything else. I look forward to going to bed earlier now, because I know I'm going to be comfortable. I'd rather be at home sleeping on my TEMPUR® bed!"

Carol & Robin

"Once you have a good sleep, then you can do things the next day so much better. We should have looked at this so much earlier! It's the best investment that I think we've ever made."

Greg & Tina

"Our scientists have refined the viscoelastic cellular structure of our Material to respond and adapt to your individual body size, shape, weight and temperature to perfectly cradle you as you sleep. No other mattress feels precisely like it was made just for you"

TEMPUR®

Beds Collections

Beds Explained

TEMPUR® offers you a choice of complete bed systems, bed frames and bed bases to complement your TEMPUR® mattress.

Inspired by the contemporary European tones, we offer a range of designs like our stunning our TEMPUR® North™ collection. The our TEMPUR® North™ collection has just the right level of comfort and support you seek, and comes in a variety of static and adjustable bed bases.

Bed Systems & Boxsprings

Contemporary Bed Systems are stylishly crafted, a complete unit with bed frame and mattress. Boxspring is a bed frame that has built-in springs in the base and was designed to amplify the TEMPUR® Hybrid collection.

Bed Frames

The bed frame is the piece of furniture that is the main focal point of the bedroom as well as the support structure for your TEMPUR® mattress. Our bed frames are upholstered in sumptuous fabrics and with a variety of headboards to suit your style of décor.

Bed Bases

Bed bases provide the support for the mattress within a bed frame. Depending on the type of bed base you can enhance your sleep experience by selecting an adjustable base that either raises the head end (for watching the television) or foot end (for elevating your legs for added relaxation) or both.

A man and a woman are lying in bed, smiling and talking. The man is on the left, wearing a grey sweater and light-colored pants. The woman is on the right, wearing a white sweater. They are both looking towards each other. The bed has a dark headboard and white pillows. The background shows a lamp and a framed picture on the wall.

TEMPUR®

Bed Systems & Boxsprings

Each of our Bed Systems combine the benefits of a TEMPUR® mattress, Bed Base and Frame in a design solution for total comfort. Enjoy the relaxing sleep and functionality that only a TEMPUR® mattress and bed delivers without compromising the aesthetics of your bedroom. Style the model of your choice by combining colours and legs to complement the décor of your room.

TEMPUR® North™ Continental Bed
see page 72

TEMPUR® North™ Pillow
see page 61

TEMPUR® North

The TEMPUR® North™ bed system is inspired by the vast landscape and unspoiled nature of the North.

Its minimalistic and curved design gives it an almost floating aesthetic and makes it stand out. Combining nature-like simplicity with a meticulous care for detail, North is a striking example of New Nordic Design.

TEMPUR® North™ Adjustable

TEMPUR® North™'s sculptural design is constructed on a wooden frame and its beautifully woven fabric is soft to the touch yet highly durable against wear and tear. The precise contrast stitching adds an extra touch of elegance. The components that normally keep the mattress in place during elevation have been hidden completely to underline the clean and simple design, no matter the position. The adjustable model features two motors and a wireless, touch-screen remote control.

- Fully upholstered bed system with integrated mattress for a uniform design
- Upgrade from a basic topper to the TEMPUR® Deluxe version for extra cushion and luxurious style, or the TEMPUR Breeze™ topper with TEMPUR® Climate Material™ and a specially designed fabric which helps increase airflow and ventilation to help you feel cooler when you sleep

TEMPUR® Zero-G Curve Curve into comfort

TEMPUR® Zero-G Curve bed base combines weightless comfort and sonic massage. The bed contours to your body at just a single touch of a button and the sonic massage provides soothing vibrations to ease your body into a state of complete relaxation.

Design

The ergonomic Bed Frame is lightweight, featuring a sleek breathable mesh surface designed to hug the curvature of the mattress and your body.

By gently elevating your legs, the TEMPUR® Zero-G Curve pre-set is designed to help increase circulation throughout your body for an experience of complete relaxation that will leave you feeling refreshed and rejuvenated.

New soothing Sonic Massage can relax your tension away. With a choice of three massage intensities, find your perfect setting to relax and rejuvenate.

Support

Discover your perfect position to sleep, read, and watch TV – your back, legs and neck are supported and perfectly cradled. The wireless remote is fitted with a one-touch button that raises legs slightly above the heart to relieve pressure off the lower spine and increase circulation.

Personalisation

For the perfect finishing touch to your TEMPUR® Zero-G Curve, select from a wide range of accessories, from fabric choice to stylish chrome legs. For more details please contact your local TEMPUR® retailer.

TEMPUR® Relax

The TEMPUR® Relax upgrades your bedroom and turns it into an elegant comfort zone.

Its minimalistic and stylish design with a tall and sleek headboard has a Scandinavian look to it, and the hidden and spacious room underneath provides a great option for storage. The Relax bed frame can be customised and comes in a variety of different fabrics and colours – making it the perfect and stylish addition to any bedroom.

TEMPUR® Horton Ottoman

TEMPUR® Horton Ottoman bed – combining function and design

The Horton Ottoman Bed is the perfect blend of classic and contemporary. The elegant and stylish winged headboard gives it character and adds a chic slim line frame to the design. By simply and easily lifting the slatted section of the bed, a spacious under bed storage is revealed adding a unique and functional aspect to the design.

TEMPUR® Bed Frames

**Designed to perfectly complement
your bedroom.**

The ideal sleep experience combines form as well as function. With a range of attractive bed frames, TEMPUR® provides not only a great night's sleep, but also the perfect aesthetic solution for your bedroom.

TEMPUR® Prestige

TEMPUR® Prestige Bed Frames

A range of contemporary bedsteads designed with a choice of headboards, colours and legs to suit your bedroom and your personal style.

A woman with long blonde hair is lying in bed, reading a magazine. She is wearing a white top and is covered with a grey blanket. The bed has a grey pillow and a beige headboard. A window with white curtains is visible on the left side of the frame, showing green foliage outside. The overall atmosphere is calm and relaxing.

TEMPUR® Bed Bases

Combine a high quality Bed Base with your TEMPUR® mattress and experience true comfort.

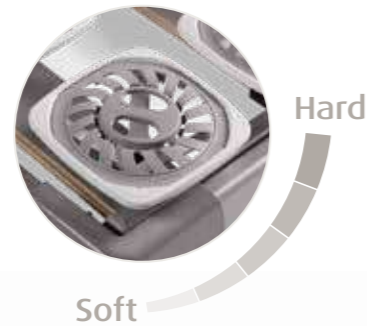

Use the bed base alone and make it into a standing bed with your own choice of legs or drop it into an existing bed frame. Each of the TEMPUR® Bed Bases are available in both a static and adjustable version. The adjustable version enables you to raise your head, body and legs for ultimate relaxation.

TEMPUR® Flex Bed Base

Sleep Technology

Flexible Plates

TEMPUR® Bed Bases have flexible plates made with an open honeycomb structure for better ventilation. For Flex Cloud bases, the plates can be easily twisted to adjust their firmness, making it possible to customise the base for optimal comfort.

Head Zone

The flexible plates are more rigid, providing additional support.

Foot Zone

Firm, supportive flexible plates are used in this area.

Back Zone

The flexible plates have a medium level of firmness.

Shoulder Zone

For this sensitive area of the body the flexible plates are softer.

Optional features

Wireless Remote

A wireless remote control is an option for the TEMPUR® Flex 2000 and a convenient radio frequency model is standard on the TEMPUR® Flex 4000 and TEMPUR® Flex 8000.

Support Inserts

The firmness of the various zones, i.e. shoulder zones, lumbar zone etc. can be increased by adding the support inserts into the flexible plates on the Bed Base.

Mattress Holders

To prevent the mattress from slipping, when using an adjustable base, we recommend using five holders: One at the foot area and two on each side of the frame. Available in plastic or chrome.

Remote Controlled Socket

Enables you to turn a light, or other electrical device, on and off via the bed's radio remote control. Available for the TEMPUR® Flex 4000 and the TEMPUR® Flex 8000.

LED Light Strip

This underbed light strip gives a stylish and atmospheric night light effect. It fits easily onto the bed frame and is activated via the bed's remote control.

Massage Unit

As an option you can choose to include a massage unit. The soft vibration helps to unwind tense shoulder and back muscles and gives a relaxed feeling all over.

Legs

A selection of leg styles are available to fix to the TEMPUR® Flex Bed Base.

TEMPUR® Flex Bed Base

Options

Choose your ideal bed base to complement your TEMPUR® mattress.

TEMPUR® Flex 500 – Static

A non-adjustable Bed Base made with a light but durable construction to support your TEMPUR® mattress.

TEMPUR® Flex 1000 – Manual

Offers manual head and foot adjustment with six adjustment positions.

TEMPUR® Flex 2000 – 2 Motor

The two motors deliver continuous variable adjustment for the back and legs.

TEMPUR® Flex 4000 – 4 Motor

The four motors provide continuous variable adjustment allowing the neck, back, thigh and foot areas to be moved separately to help you find your perfect position. Includes a wireless remote and memory function, and optional features such as a massage unit and two-bed synchronization are available.

TEMPUR® Flex 8000 – Wallhugger

This intelligent, four motor Bed Base enables you to adjust into a sitting position without being moved forward and away from your bedside table or lamp. Includes all the features and options of the Flex 4000.

TEMPUR® Flex Cloud 500, 1000, 2000, 4000

These Bed Bases are attractively designed with a silver and grey colour to complement the TEMPUR® Cloud Mattress. The flexible plates can be easily twisted to adjust their firmness, making it possible to customise the base for optimal comfort.

This support cushion is designed for use on any ordinary mattress to provide lower back support and alleviate back strain. Contoured from unique TEMPUR® Material for maximised pressure relief and personalised body support.

TEMPUR® Long Hug Pillow

Versatile in design, allowing you to adapt its use for personalised comfort and support. Contoured from TEMPUR® Material for you to hug and embrace, as you find your most comfortable sleeping position. Its length can easily replace the need for two pillows, whilst also performing as a support pillow when reading or watching T.V in the bed or on the sofa. Also, considered an ideal comfort solution for pregnant women.

TEMPUR® Leg Spacer

Recommended for use between your legs or under your ankles, to relieve pressure points and enable you to sit or lie more comfortably. The Leg Spacer can also be washed in between use and can fold away when not in use.

TEMPUR® Universal Pillow

A semi-circular pillow for all-round use when you need extra support. Ideal for use under the knees, arms, ankles, the lumbar region or the neck.

TEMPUR® Multi Pillow

This multi-purpose pillow is designed to support those areas where you need extra comfort and support. Contoured from TEMPUR® Material for maximised pressure relief and personalised body support, this cushion is suitable for under the neck, arms, knees, and lower back region.

TEMPUR® Marumaru Cushion

Add comfort to your favourite chair or put the circular Marumaru cushion directly on the floor. This cushion is portable, light-weight and always comfortable. Available in a choice of colours.

TEMPUR® Seat Cushion

The pressure-relieving and body-conforming properties of TEMPUR® Material, evenly distributes your body weight to reduce the discomfort of numbness caused by prolonged sitting. This seat cushion is designed to fit comfortably on most office, dining and accent chairs. For added comfort and support pair with our TEMPUR® Lumbar Support. Or if you need a seat cushion to help relieve pressure on the lower back consider our TEMPUR® Seat wedge.

TEMPUR® Lumbar Support

The anatomical shape, versatile height adjustment feature and conforming properties of TEMPUR® Material, combine to gently enforce correct posture, that protects and maintains healthy spine alignment. Pair with our TEMPUR® Seat Cushion or TEMPUR® Seat Wedge for enhanced pressure relief and lower back support. If you need added back support when away from home, consider our TEMPUR® Transit Lumbar Support.

TEMPUR® Seat Wedge

The geometric wedge shape positions your pelvis forward, which helps align your back in the correct upright posture and relieve pressure on your lower back region. An ideal solution for those who work sitting over prolonged periods. For added comfort and support pair with our TEMPUR® Lumbar Support.

TEMPUR® Vein Cushion

This support cushion is designed to provide relief for leg or ankle strain, varicose vein and swelling due to poor circulation. To benefit from the conforming and pressure relieving properties of TEMPUR® Material, we recommend using when either lying or sitting in bed or on the sofa.
