For your best night's sleep

feel comfort, feel support, feel TEMPUR®

TEMPUR® - Adapts to
you perfectly, so you
feel weightless

No two people are the same. We all differ in shape, size and style. And, we all sleep differently. So it's worth investing time to find a mattress that gives you a perfect sleep night after night. First developed by NASA, TEMPUR® Material conforms to the unique shape of your body, absorbs motion and relieves pressure where you need it most.

Sleep Technology™ by TEMPUR®

Sleep Technology™ by TEMPUR®

The best night's sleep by design

Our sleep experts, designers and engineers have spent years pioneering and perfecting our signature TEMPUR® Material, so you can experience personalised support and comfort that is your perfect fit.

Maximised pressure relief

TEMPUR® Material is a pressure relieving surface, engineered with an open cell structure that absorbs and evenly the weight of your body and maximises comfort.

Personalised body support

We have designed TEMPUR® Material to be in the ideal state to soften, compress and conform to your shape and weight at average bedroom temperature. Whichever position you find most comfortable, TEMPUR® adapts to you.

Outstanding motion absorption

TEMPUR® Material absorbs motion – so you and your partner can move and are less likely to disturb one another. Motion absorption is measured through rebound – the lower the better. Drop a weighted ball onto standard memory foam and it can rebound up to 20%. TEMPUR® has a rebound less than 3%.

Long-lasting performance – guaranteed

While many industry experts recommend that you review your mattress every seven years to enjoy the best possible sleep, at TEMPUR® we guarantee our mattresses for 10 years. In this time it will retain at least 95% of its height, with no lumps or bumps – just outstanding performance for years to come.

Pioneers in sleep technology

At TEMPUR®, we're driven by a passion for innovation and the desire to give you the best possible night's sleep. We believe this can only happen on a mattress that's supportive and comfortable.

Innovation in our DNA

Our passion was established over 30 years ago, when a team of scientists at NASA developed a ground-breaking material to provide support to astronauts during lift-off. We quickly realised it would revolutionise the way people sleep, and our committed engineers and sleep scientists set about perfecting TEMPUR® Material.

Here's how it works

TEMPUR® Material is designed to conform to the shape of your body, absorb motion and relieve pressure in all the right places – the key components to a supported, peaceful night's sleep. Mission accomplished.

A tireless quest for perfection

Actually, it doesn't stop there. We invest tens of millions each year into research and testing. Plus we're supported by a certified panel of sensory experts and sleep specialists. This ensures that every element of every product we create performs in such a way that you can enjoy hours of perfect restful sleep, night after night. All you feel is weightless.

5 Steps to your perfect sleep

TEMPUR® is not just about being able to sleep on a great mattress, it is also about enjoying the perfect sleep experience and designing a solution that complements your bedroom style. Your ideal TEMPUR bed includes five key elements.

1 Mattress selection

The mattress is the most influential factor in determining whether you are comfortably supported at night. As sleeping well is essential for your health and well being, it is important to invest in a good quality mattress that offers the comfort and support that you need. TEMPUR® offers a wide range of mattresses with different comfort feels and features, all of which offer superior TEMPUR support.

2 Bed selection

Choose from a range of bed frames and adjustable bases. There's a TEMPUR® bed to suit your style, meet your needs and enhance the comfort of your mattress.

For the ultimate in relaxation, consider adding features like a massage unit to your Bed Base.

4 Pillow selection

A quality pillow that properly supports your head and neck in a comfortable position all night long is vital to enjoying your best night's sleep. Discover the wide selection of TEMPUR® pillows, which suit a variety of needs and sleep positions.
